Art Unit: 2816

1. The amendment filed on 5/25/04 has been received and entered in the case.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 1-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over applicant's admitted prior art Fig. 9 in view of Nagai.

The only difference between the independent claims and the admitted prior art Fig. 9 is that in the claimed invention the series and parallel FBARs have different areas. This is old and well-known in the art, however, as taught by Nagai (see paragraph three of the previous office action) and would have been obvious to any person having ordinary skill in the art, i.e., to achieve the advantages taught by Nagai and also to allow the frequency response to be varied easily (since the electrode areas determine the capacitance values of the electrodes, and thus the frequency response characteristics, as is old and well-known in the art of piezoelectric filter devices).

As to claims 2-11 and 13-15, see paragraph four of the previous office action.

Art Unit: 2816

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL.** See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth B. Wells whose telephone number is (571)272-1757. The examiner can normally be reached on Monday through Friday from 8:30am to 5:00pm.
